3 DATA SHARING AND REPRODUCIBILITY

Researchers should share their data to allow others to verify results and contribute to the reproducibility of research

ORIGINALITY AND PLAGIARISM

All work submitted should be original and properly cite sources to avoid plagiarism

5 AUTHORSHIP AND CONTRIBUTION

Only those who have made significant contributions to the research should be listed as authors. All authors must approve the final manuscript.

ETHI CAL PRINCIPLES

JASPI

6 TRANSPARENCY AND DISCLOSURE

Any potential conflicts of interest, funding sources, or affiliations should be disclosed to ensure the integrity of the research.

PEER REVIEW PROCESS

7

The peer review process should be fair, unbiased, and confidential, providing objective and constructive feedback.

8

CORRECTIONS AND RETRACTIONS

If errors or misconduct are found after publication, authors should act quickly to correct or retract the work, maintaining the integrity of the scientific record.

RESPECT FOR RESEARCH SUBJECTS

2

Ensure that research involving human or animal subjects complies with ethical standards, with proper approvals and informed consent.

HONESTY AND INTEGRITY

Researchers should present their findings truthfully, avoiding fabrication, falsification, or selective reporting of data.
